### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: It is agreed that none of applied prior art of record teach or fairly suggest the type of X-radiation-sensitive phosphor comprising a rare earth phosphate, a yttrium phosphate, a strontium phosphate, or a strontium fluoroborate in a photothermographic material claimed in the present claimed invention. The type of the compound may have known in C.F. Chenot or Gilliam et al, but both documents fails to teach or fairly suggest the use thereof in a photothermographic material. In the absence of expectation of success, it would have been unobvious to the worker of ordinary skill in the art to use the claimed X-radiation-sensitive phosphor taught in C.F. Chenot or Gilliam et al in lieu of that taught in Simpson et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
